# Otis Sleep Zones

experience the comfort.

## It's ALL About Comfort & Support!

**Otiszones... from body contouring soft (#1) to an extra-firm zone (#10)**

**Otiszone1**...the most exclusive pressure management zone that is made with Viscoelastic temperature sensitive foams AND quad-density latex like HD foams that provides a pressure-relaxing sleep that conforms to your body to promote vital circulation (blood flow) throughout your body to rest peacefully, giving you a deeper sleep!

**Otiszone2**...body contouring zone that is topped with Viscoelastic memory foam to cradle your body in comfort so you toss and turn less and wake up feeling energized!

**Otiszone3**...Our plushest and softest zone made of pressurized HD Foam

**Otiszone 4**...Energized plush innercomfort zone that is sensed when you lock in the comfort of latex-like foam and HD foam.

**Otiszone5**...Gentle firm and vitalized zone that envelops your body with a blend of pressurized multi-density and highly resilient foams.

**Otiszone6**...This zone is the ultimate of contoured comfort...Firmer on one side and softer on the other. Designed with foam encased individual Marshall Coils of varied comfort gauges aid in this hi-tech customized feel.

**Otiszone7**...Lively and firm zone that moves with your body and never bottoms out. Totally HD foam encased bonnell innersprings are utilized in this extremely durable and firm sensed fingerprint of comfort.

**Otiszone8**...Invigorating firm zone that has its own synergy of comfort when the mixture of multi high-density foams are pressurized.

**Otiszone9**...A moldable energized zone with an extra-firm feel is awarded by this combination of latex-like foams and a multitude of highly resilient foams.

**Otiszone10**...This zone captures the soul of extra-firmness. Layers of pressurized HD highly resilient durafoams customize this comfort level.

Now is the time to make your **"PERSONAL COMFORT CONNECTION" WITH OTIS.**

**What is your Otiszone?** Otis's exclusive comfort zones help you choose which mattress is the one for you! Ten unique comfort zones to choose from. The lower the number, the more body contouring softness! Once you find your number, we can make you comfortable in any room of your home! Combine your **Otiszone#** with our dynamic **Everlast Foundation** for amazing lifetime support and you'll experience the most peaceful & relaxing night's sleep, ever!

*An optional Matching Support Unit (MSU) can be added underneath your chosen Otiszone mattress for added dimension, support and comfort to enhance your sleep zone.*

*Otis makes contoured comfort for the way you live!*

### Otiszone

Our dynamic series of *Signature Sleep Zones* feature ten (10) unique comfort zones for you to choose from for your personal sleep comfort. Each mattress is pressurized with its own fingerprint of comfort and support locked inside for life! What is your Otiszone?

1. Fabric Belgian damask...the most durable fabric that provides natural comfort to your body
2. Tape Edge Construction...delivers a uniform tailored look with structure lines that give a true reading on the thickness of the mattress
3. Tailored edge support for durability and added support for everyday wear and tear
4. Our exclusive *Otis Comfort Lock Cushioning System™* tensions all the materials inside to develop a specific comfort level that is consistent over the life of the mattress. Performance testing proves this technology is the key to substantially reducing body impressions.

*optional*

**The Matching Support Unit (MSU)** is an optional foam encased low-profile spring unit that provides added support and dimension to your sleep zone!

**The Everlast Foundation** is the last support your mattress will ever need! If you have a great support system, your mattress will never sag. This comes knocked down, is easy-to-assemble, and outperforms boxsprings!  
**Bonus...**breakdown is simple for moving or maneuvering thru tight walkways!
